Description

The DSP6061B is a wall mount speaker built-in 70v/100v transformer. The 70v/100v transmission is realized in a high-voltage, low-current mode, which makes longer distance transmission and parallel connection of multiple loudspeakers possible.

The built-in 4"+1" two ways full range speaker drivers are designed of wide frequency response 100-20,000Hz, the multiple power taps of 10W & 20W could meet different applications varies from room size and ambient noise surroundings.
Metal grille and ABS enclosure of black color, long-term durability, never out of shape and fading; high sensitivity, clear and sonorous sound. Easy and secure wall mount installation by hanging holes.

It is ideal choice for industrial and commercial applications in hotel, school, office and factory where background music and paging is needed.
